lita Recliner

The Lita Recliner boasts smaller scaled dimensions, designed for the more petite resident. This push-back model allows the user to manually recline by simply pushing back on the arms. The footrest and back work in sync together, so it is not possible to independently control just the footrest.

Model: LIRARBA
29W 34D 48H 20SW 19.5SD 19SH 25AH
69 Ext. Depth

Features

Durable Finish
Kwalu's solid surface (1/8" thick) proprietary finish doesn't have any of the drawbacks of wood. The frames are moisture impervious, graffiti-resistant, easy to clean and maintenance-free.

Steel Reinforced
Our patented steel-reinforced joint system uses over 20 pieces of steel in most Kwalu chairs. Stop ongoing and costly furniture replacement.

Easy to Grasp Handgrip
Extended arm creates easy to grasp handgrip.

Push on the Arm Mechanism
The recline mechanism is activated by a simple push back on the arms.

Extended Length
Fully reclines to a depth of 69 inches.

Easy to Clean
Clorox Healthcare and Kwalu are partnering to fight HAI's. Kwalu chairs have no topical coatings, so sanitizing solutions commonly used in healthcare environments can be used – including 100% bleach – without degrading the finish.
