modena

Bariatric – 46W

The Modena Bariatric 46" with Flex Back provides extremely comfortable healthcare waiting location for one or two. Reinforced steel under the seat supports 750 pounds. The flex frame connects from the seat of the chair to the back and consists of four custom brackets and horizontal support. The seat, arms and legs remain stationary to deliver ergonomic support as the user changes position during waiting periods. The single back and seat cushion are just wide enough for a parent and small child. This Modena works well in lobbies, lounges, reception areas and emergency waiting rooms.

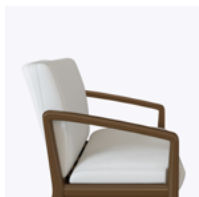

Model: MDAB46G

Features

Faceted-Edge Frame Detailing

The outside face of the chair frame showcases faceted-edge detailing reminiscent of hand-crafted wood workmanship.

Flex Back

Frame enables a modest amount of flexibility in the back only; seat, arms and legs remain stationary.

Wallsaver

Wallsaver back legs help keep walls in pristine condition.

Weight Capacity

Modena Bariatric 46" is rated to 750 lbs weight capacity.

Back Cushion and Seat Cushion are Field Replaceable

Both the back cushion and the seat cushion can be replaced in the field.

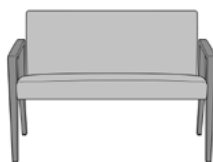

Optional Linking Tables

Optional Center Linking tables are available to provide stationary space between the chairs and fit your space.
