Flex – Tall Back

The Valdina Flex – 24W Tall Back is designed with a flex frame that connects from the seat to the back. This frame enables a modest amount of flexibility in the back only which adds a level of comfort during long waiting periods. The seat, arms and legs remain stationary providing ergonomic support as the user changes position while angled, contemporary arms facilitate ingress and egress. This chair has two back styles, tall and short. Wall saver back legs ensure the walls remain in pristine condition.

Model: VDNF12

Features

Flex Back
Frame enables a modest amount of flexibility in the back only; seat, arms and legs remain stationary.

Wallsaver
Wallsaver back legs help keep walls in pristine condition.

Steel Reinforced
Our patented steel-reinforced joint system uses over 20 pieces of steel in most Kwalu chairs. Stop ongoing and costly furniture replacement.

Durable Finish
Kwalu's solid surface (1/8" thick) proprietary finish doesn't have any of the drawbacks of wood. The frames are moisture impervious, graffiti-resistant, easy to clean and maintenance-free.

Visible Cleanout
Cleanout prevents build-up of debris and provides for easy maintenance.

Back Cushion and Seat Cushion are Field Replaceable
Both the back cushion and the seat cushion can be replaced in the field.

Optional Closed Arm Panels
Available with or without upholstered arm panels.

Brake Under Load Casters
Optional Brake Under Load Casters lock when a person sits on the chair, and unlock when they're not for easy movement of the chair.
