## Flex – Short Back

Key to Kwalu's Valdina Flex Chair design is the flex frame which connects from its seat to the back, enabling a modest amount of flexibility in this short backed chair. The slight movement in the back soothes and adds comfort during long waiting periods. The seat, arms and legs remain stationary providing ergonomic support as the user changes position while angled, contemporary arms facilitate ingress and egress. This chair has two back styles, tall and short. Wall saver back legs ensure the walls remain in pristine condition.

Model: VDNF11

### Features

#### Flex Back

Frame enables a modest amount of flexibility in the back only; seat, arms and legs remain stationary.

#### Wallsaver

Wallsaver back legs help keep walls in pristine condition.

#### Steel Reinforced

Our patented steel-reinforced joint system uses over 20 pieces of steel in most Kwalu chairs. Stop ongoing and costly furniture replacement.

#### Visible Cleanout

Cleanout prevents buildup of debris and provides for easy maintenance.

#### Back Cushion and Seat Cushion are Field Replaceable

Both the back cushion and the seat cushion can be replaced in the field.

#### Optional Linking Tables

Optional Center and Corner Linking tables are available to provide stationary space between the chairs and fit your space.
