Valdina

DESIGNED FOR HEALTHCARE

The Valdina was designed for use throughout any hospital. The chair frames look like wood, but are actually made from a ground-breaking, solid surface (1/8" thick), high-impact-resistant polymer which means they don't have any of the drawbacks of wood. The frames are moisture impervious and can be cleaned for at least 10 years using any of the EPA-registered antimicrobial products effective against *C. diff.* (even 100% bleach), without diminishing the chair surface's integrity or appearance.

BUILT FOR INFECTION PREVENTION

On the patient's road to recovery and sustained good health, cleanliness is critical. Combining appropriate furniture materials with the correct cleaning products and protocols ensures effective surface disinfection, reducing the risk of cross-transmission of HAIs. The Valdina is built for infection prevention with a frame that does not support microbial growth. The chair can also withstand the harshest daily cleaning regimens, including bleach, without degrading its finish and appearance. Kwalu's Valdina chair provides one missing piece of the puzzle in infection prevention, contributing to the goal of eliminating deadly pathogens before they can come into contact with healthcare workers, patients and guests.

Nightingale Innovation Award

Kwalu's GetWell Patient Room was awarded a Nightingale Innovation Award for Surfacing Materials.

Easy to Clean

Clorox Healthcare and Kwalu are partnering to fight HAI's. Kwalu chairs have no topical coatings, so sanitizing solutions commonly used in healthcare environments can be used – including 100% bleach – without degrading the finish.

10 Year Warranty

We offer a 10 Year Performance Warranty on both construction and finish, so the product is guaranteed to stay looking like new for 10 years.

Valdina Short Back – Fixed

The Valdina Short Back – Fixed is thoughtfully designed, featuring clean lines, a spacious removable seat and an angled fully upholstered back. The chair back extends to the seat rail and the cleanout is incorporated behind the seat cushion providing a clean, functional look. This is exactly the type of comfortable seating required in a reception area, lobby or waiting room. Optional center linking tables and corner linking tables with a leg support may be added to the Valdina Fixed chairs.

The solid surface 1/8" thick finish of the chair is indestructible, and is backed by the industry's only 10 year warranty on finish. This chair will continue to look like new, 24/7.

Valdina Multiple

The Valdina Multiple, like all Kwalu group seating options, make it possible for friends and family to sit together comfortably in lobbies, lounges and reception areas or in emergency waiting rooms. Extremely versatile, this seating option allows for various configurations of two or three seats combining guest or bariatric sizes. The chair has two back styles – tall and short. Linking tables may be added and are optional.

3-SEATER TALL BACK

2-SEATER SHORT BACK

Valdina Linking Tables

Valdina Linking Tables make it possible to 'link' the versatile Valdina Fixed chairs and the chairs in the Valdina Multiple collection in a lobby or waiting room setting so families can sit together comfortably. The corner linking table is equipped with a center leg support. Steel mounting brackets are available to attach the table to the frame of the chairs.

Kwalu's beautifully designed furniture is made of a high-impact-resilient polymer that looks like wood but has none of its drawbacks.

Finishes won't split, chip or swell even after years of harsh cleaning.

Valdina Easy Access

Anyone who has experienced hip replacement surgery understands the importance of a chair that takes the guess work out of the simple act of sitting down. Kwalu's Valdina Easy Access Chair does not disappoint when it comes to providing pain-free, secure and comfortable seating. The higher seat is designed to enable sitting without bending at the hip and the solid, upright back provides unmatched ergonomic support. Side, back and front stretchers add to the stability of this chair. Non-skid glides are on all legs; adjustable on the front. A non-slip foot rest is attached to the top of the front stretcher. While there is nothing simple about hip replacement surgery the simple act of taking a seat in the Valdina Easy Access Chair is.

Valdina Flex Chair

Key to Kwalu's Valdina Flex Chair design is the flex frame which connects from its seat to the back, enabling a modest amount of flexibility in this tall thin backed chair. The slight movement in the back is appreciated as it soothes and adds comfort during long waiting periods. The seat, arms and legs remain stationary providing ergonomic support as the user changes position while angled, contemporary arms facilitate ingress and egress. Wall saver back legs ensure the walls remain in pristine condition.

The armless version of the Valdina Flex is a thoughtfully designed chair which features an upholstered back and seat. It has a flex frame which connects from its seat to the back, enabling a modest amount of flexibility in this short backed chair. Wall saver back legs ensure the walls remain in pristine condition.
